SITUATION SUMMARY

Glacier Induced Flooding, South Central Siskiyou County

At approximately 1500 hours yesterday afternoon, 09/20/14, a portion of a glacier on Mt. Shasta broke loose and created a mud, rock, and debris flow down the southeast side of the mountain. This resulted in the issuance of a Flash Flood Warning for Mud Creek and Pilgrim Creek and the closure of Forest Road 31, known as Winding Way, and Forest Road 13, known as Pilgrim Creek Road. Due to the uncertainty of the water continuing to accumulate behind the debris flow, a Flash Flood Watch was issued by NWS Medford.

- A Flash Flood Warning is in effect until 1045 hours this morning for South Central Siskiyou County.
- A Flash Flood Watch is in effect through this afternoon for Highway 89 at Pilgrim Creek in South Central Siskiyou County.

Flood waters are moving down Mud Creek and Pilgrim Creek from mid-way up Mount Shasta to just north of Highway 89 where waters are currently dammed.

Water continues to accumulate upstream behind the debris flow and may break free and flow downstream across Highway 89 at any time. This drainage flows past Highway 89 approximately 4 to 5 miles east of McCloud, which is where the flood threat exists.

The amount of water building up behind the debris flow is not known at this time; however, it may be substantial. If and when this water is released it may create significant flooding on Highway 89. The flood waters may be swift moving and very dangerous. Motorists on Highway 89 east of McCloud are urged to use extreme caution.

According to a news release issued by the U.S. National Forest Service, Shasta-Trinity National Forest, the exact cause of this slide has not been determined; however, it is believed to be due to drought conditions.

<http://www.fs.usda.gov/detail/stnf/news-events/?cid=STELPRD3817564>

Per Shasta-Trinity National Forest, resources are on scene and continue to monitor the changing situation.

Siskiyou County reports no impacts to McCloud at this time; Cal OES Inland Region and the California State Warning Center continue to monitor.

SITUATION SUMMARY

Governor Brown declares a State of Emergency in Siskiyou and El Dorado Counties

On September 17, 2014, Governor Edmund G. Brown Jr. issued an emergency proclamation for El Dorado and Siskiyou counties due to the effects of the King and Boles fires, which have burned thousands of acres, destroyed homes and other structures and damaged critical infrastructure. Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will continue to bring dry conditions and seasonable temperatures to northwest California through at least Monday. Expect low clouds and fog along the coast during the night and morning with partial clearing in the afternoon. A trough will begin to move over the West Coast early this week bringing cooler temperatures and widespread rain by the middle of the week.

San Francisco Weather:

Slightly warmer weather is forecast over the next few days. Otherwise, little change is expected with a relatively deep marine layer resulting in widespread night and morning low clouds. A Pacific storm system will likely bring rain to the northern part of the San Francisco Bay area from late Wednesday into Thursday. Rain may extend as far south as the Monterey Bay area by Thursday. Showers are possible from Thursday afternoon into Friday evening.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Lingering Sierra showers and thunderstorms are possible through this evening; otherwise, dry and warmer temperatures for the forecast area into early next week. Cooler and possibly wetter weather is then forecast from the middle to end of next week.

Hanford Weather:

A chance of showers and thunderstorms over the southern Sierra Nevada today as the weather disturbance causing today's storms exits the region. A weak upper ridge will return with dry conditions and warm temperatures early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A warming trend is expected through early next week as upper level low pressure moves east and high pressure returns. High pressure will also shrink the marine layer and force the night through morning low clouds and fog out of some valleys early next week. Cooler weather will return later next week as a broad trough of low pressure approaches from the west.

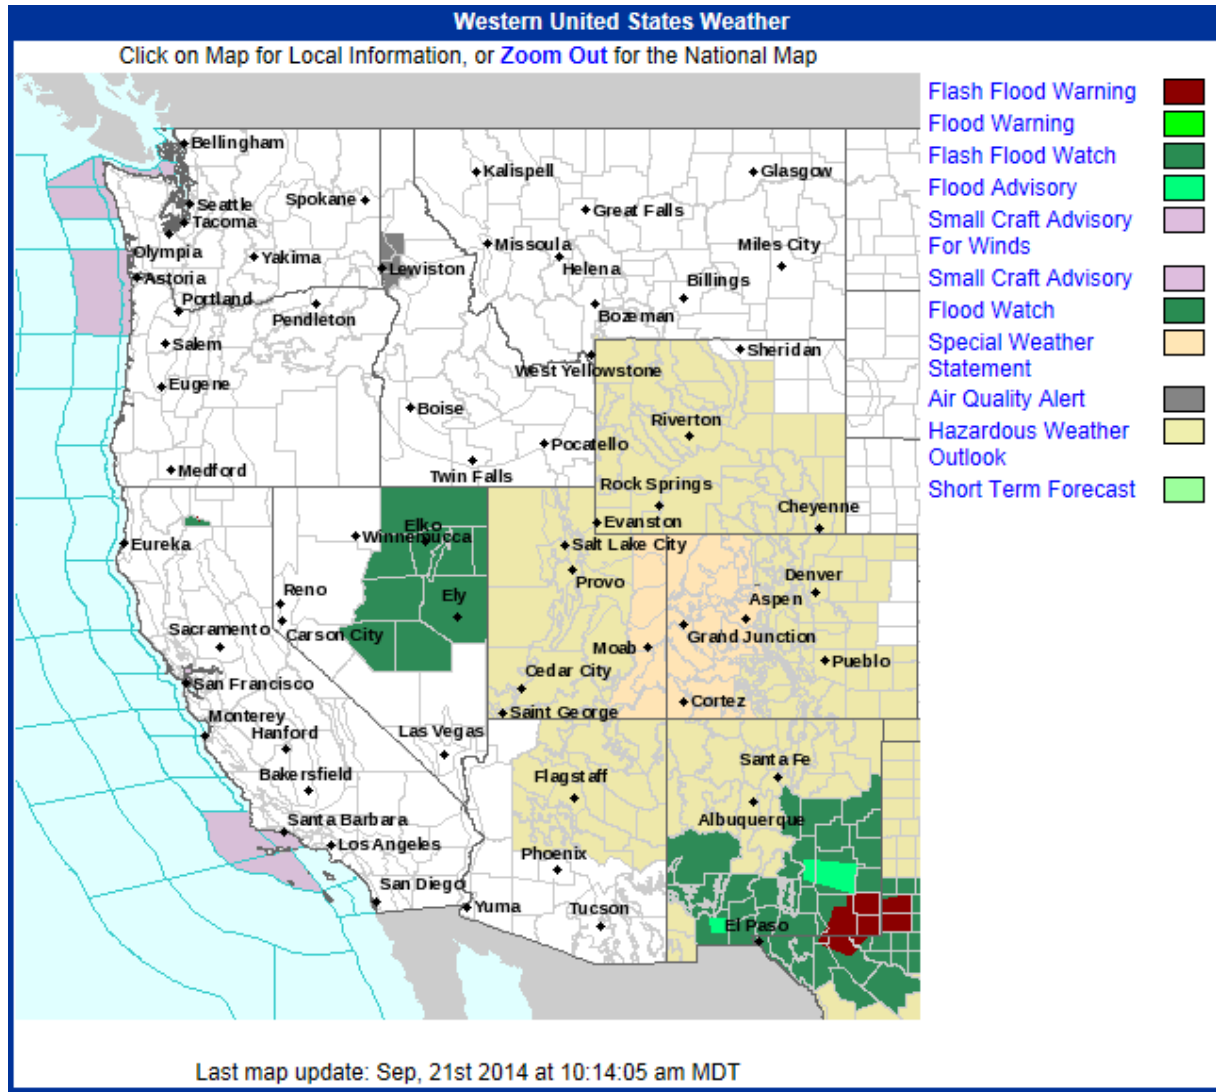

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

The upper low that hung out along the central California coast on Saturday will depart to the north and east today. This will result in earlier clearing of the low clouds and an increase of 1 to 3 degrees in the high temperatures for most areas today. A building ridge of high pressure will bring a noted warming trend for the first half of the workweek with above average temperatures arriving by Tuesday and Wednesday. Low pressure moves inland along the northern California and Oregon coasts Thursday and Friday bringing dry, cooler, and breezy weather to southern California.

Southeast California Weather:

Drier air will gradually filter into the region today and Monday leading to a drastic decline in storm chances. Slightly above normal temperatures are anticipated through the middle of this week. An approaching Pacific weather system likely affecting the Desert Southwest on Friday and Saturday will lead to an increase in storm chances and cooler temperatures.

Cal OES Deployments

- Two (2) Cal OES Assistant Fire Chiefs are assigned
- **Three (3)** Cal OES Emergency Services Coordinators are assigned
- Two (2) PSC Technicians are assigned.
- Four (4) Cal OES Recovery staff are assigned.

Activations

- Co-Located Siskiyou County and City of Weed EOC activated at Level 2.
- Cal OES Inland REOC activated to Level 2 at 0700 hours in support of Inland Region fires.
- Cal OES SOC is activated to Level 2 and staffed with the White IST at 0700 hours.

Shelter Operations

- American Red Cross Shelter - Mount Shasta Armory, 618 Everitt Memorial Hwy, Mount Shasta. Current population: **7**.

Fire Suppression Water Issue

- The City of Weed lost one of their drinking water storage tanks and is drawing water from a second tank. That tank is now running low and the well is sucking sand. With strict water conservation measures in place, the water system is maintaining enough pressure to supply drinking water; however, there is not sufficient water pressure for fire suppression. Cal Fire water tenders are in place. Cal OES is working with the State Water Resources Control Board, Drinking Water Program to assist with finding a solution to this issue. The State Water Resources Quality Control Board, Drinking Water Program will conduct a site visit on Monday, September 21, 2004.

Schools

- **The State School Engineer evaluated Weed Elementary School; it is tentatively scheduled to open later next week.**
- **Weed High School will tentatively open on Monday, 9/22/14.**

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

Recovery

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. IA PDA teams conducted additional PDAs 9/17/14 through 9/19/14 finalizing PDAs in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA worked closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Time and location: 09/23/14 at 1000 hours at the Napa Valley Exposition in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- State Voluntary Agency Liaison (VAL) participated in a Long Term Recovery discussion meeting on Monday, 09/15/14. Participants included several voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD. A presentation on long term recovery and update on current recovery efforts was provided. Due to the absence of local faith based and other organizations that may have resources, SVOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
- American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.
